Pink Rosebud Bed and Breakfast

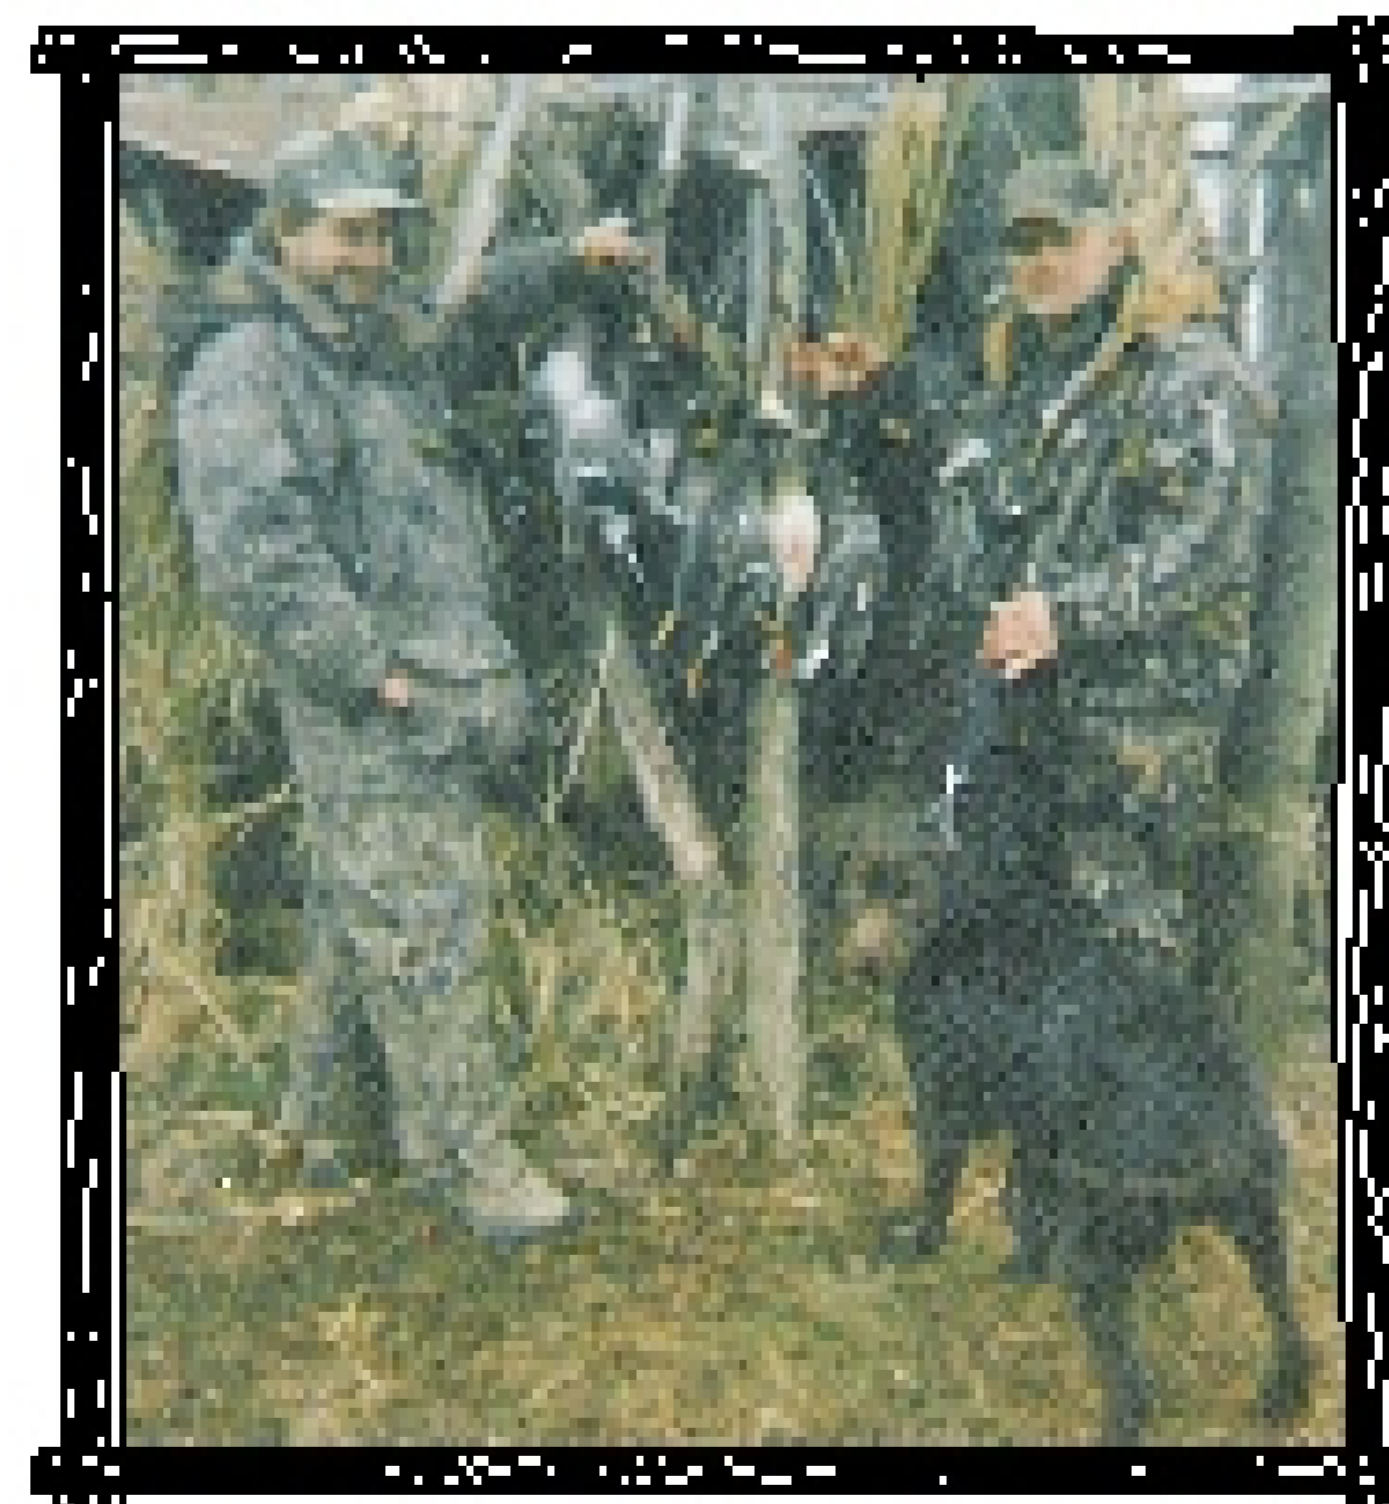

300 North Birch Ave. Plattsburg, MO 64677
417.357.2100

The hunting is great, but take a step back in time and stay in this wonderfully restored 1878 stone home. You will be able to relax on the patio, the front porch, or perhaps just sit in the secluded hot tub in the back yard. Also, featuring breakfast, varied main dishes, and fresh home made sticky buns. All of our rates include lodging and meals except for single day hunts.

KENNELS

Iron Duck Hunting specializes in breeding and training labrador retrievers. We breed the best blood lines in the country from Chocolates, Black, Yellow and Kellogs. We have the experience in the art of labradors afield. We blend discipline and routine to ensure your dog will process the ability to follow voice commands or hand signals. Our training consists of Big Water, Marsh and afield concepts that will help build confidence and ensure your dog in the challenges it will face in your hunting adventures.

HUNT THE MIDWEST NORTH WEST MISSOURI

"An extraordinary experience for people seeking a unique outdoor experience."

Joe Laukemper

President, Waterfowlers Hall of Fame
Mound City, Mo.

WATERFOWL

Welcome to Iron Duck Hunting. We specialize in the most rewarding, professional, and memorable hunts. With our passion for wildlife, Iron Duck hunts are balanced with new technology and a history of experience.

All of our hunts take place in Northwest Missouri from the Squaw Creek Wildlife area to Smithville Lake. These areas offer unique and exceptional hunting adventures for you to treasure and enjoy.

Iron Duck guides are skilled professionals that inspire and perform their talents into a most remarkable experience for you.

Dan Guyer is a seasoned hunter who has hunted the Mississippi and Central Flyways since 1965. His hunting exploits have taken him all over the world, including Hawaii for turkey and Chinese pheasants to a safari in Mombasa Kenya, Africa for water buffalo and other big game. Today he mainly guides hunters for Midwestern waterfowl, turkeys, and other species.

Guyer believes that a quality duck or goose hunt includes setting up where the birds want to go, watching the dogs retrieve downed birds and good conversation in the blind. His knowledge of waterfowl hunting makes each hunt an adventure when anything can happen. His partner, Luke Rhoad, blends calling techniques with Guyer's to create sounds that duck seldom hear and quickly respond to. Both have honed their skills to a science that creates a lot of successful duck hunts.

YOUTH

Today's youth are tomorrow's hunters. At Iron Duck Hunting, we encourage the youth we take hunting to enjoy and understand their outdoor adventures. We take the time to demonstrate and teach valuable lessons afield, whether it's identifying the species of waterfowl in flight to taking a role of responsibility in being an ambassador in outdoor conservation. So we invite you to help us take on the challenge of hunting and teaching today's youth the wonderful world of outdoor adventures.

TURKEY, DEER & PREDATOR

Turkey hunting in Missouri offers the best in the pursuit of the Eastern Turkey. The population of this species per square mile is second to none. Iron Duck Hunting specializes in premier Eastern turkey locations in North West Missouri.

Missouri reached a new plateau in harvest numbers by taking a record number of 324,380 deer last year! Missouri's deer herd is very resilient despite high harvest numbers year upon year.

MEMORIES & CAMARADERIE

Hunting with Danny is like hunting with an old friend, even if you've just met him. I've been blessed to hunt with many different guides over the years, but Danny is the one guy that I have to see every year. The hunting is always top-notch, but it's the extras and fellowship that I enjoy more than anything. The scenery is straight out of a waterfowl magazine, the calling is sweet music and the dog works perfect. Thanks, Danny, for the memories.
